CarFinder Is Officially Live!!!!!!

September 20, 2026

I am excited to announce the official launch of CarFinder, a web application designed to provide a simple and organized way to search vehicle inventory. CarFinder allows users to search available vehicles by year, make, and model without an overly complicated search experience.

Search. Explore. Save.

CarFinder provides users with the tools needed to quickly explore available vehicle inventory and find useful vehicle information in one place.

Key Features

- Search vehicle inventory by year, make, and model
- View detailed information for available vehicles
- Save and manage vehicles using Favorites
- Add new vehicles to the inventory
- Navigate through a simple, responsive interface
- Access CarFinder directly from any modern web browser

CarFinder also uses vehicle data from the NHTSA vPIC API to support its vehicle search experience. The application has gone through development, Beta testing, feature improvements, SEO implementation, analytics integration, and final testing in preparation for launch.

CarFinder Is Live!!!

CarFinder is now publicly available at:

<https://carfinder-amoy.netlify.app/>

Visit CarFinder today to search available inventory, explore vehicle information, and experience a simpler way to find cars by year, make, and model.
